

SmartBase MP700 Photo with silver coated lid

SmartBase MP730 Photo including Super G3 fax modem and ADF

SmartBase MP700 Photo/730 Photo features

- Easy-to-use Digital Photo All-in-One including a high quality copier, scanner and fax*
- High-speed printing and copying — 22 ppm monochrome and 14 ppm colour
- High-quality printing — 4800 x 1200 dpi
- Consistent 2 picolitre droplet size
- Direct Photo printing — media slots for CompactFlash™, Smart Media™, Memory Stick®, Secure Digital® and MultiMedia Card²
- Single Ink tanks, so you never discard half-full cartridges
- Borderless printing and copying in A4, 4" x 6" and 5" x 7"
- Hi-resolution 1200 x 2400 dpi scanning
- Super G3 33.6 kpbs fax*
- 30-sheet Automatic Document Feeder*
- 150-sheet Automatic Sheet Feeder

* Super G3 fax and Automatic Document Feeder available only on the SmartBase MP730 Photo.

Canon SmartBase MP700 Photo/MP730 Photo specifications

TYPE	Flatbed BJ multifunction	FAX MEMORY	250 pages ¹
MACHINE TYPE	SmartBase MP700 Photo: Print, Card Direct Print, Scan, Copy	ONE TOUCH DIALS	8 locations
PAPER SCANNING TYPE	SmartBase MP730 Photo: Print, Card Direct Print, Fax, Scan, Copy	CODED DIALS	100 locations
	SmartBase MP700 Photo: Flatbed scanner	REPORTS	Activity report, Transmission report, Error report, Reception report, Multi TX/RX reports, Memory/Speed dial list reports
	SmartBase MP730 Photo: Flatbed scanner with Automatic Document Feeder (ADF)	OTHERS	Dual Access, Redial (Automatic and manual), Fax/Tel auto switch, Answering machine hook up, Error correction mode (ECM)
PRINTER FUNCTIONS	Bubble Jet ink-on-demand with advanced MicroFine Droplet Technology™	SCANNER FUNCTIONS	
PRINTING METHOD	Up to 22 ppm (Max), 13 ppm (Std)	SCANNER TYPE	Flatbed colour scanner with Contact Image Sensor
COLOUR PRINT SPEED	Text & Graphics: up to 14 ppm (Max), 9 ppm (Std); A4 Full Page: up to 2.5 ppm (Std) ³	AUTOMATIC DOCUMENT FEEDER	30 sheets
PHOTO PRINT SPEED	A4: up to 0.6 ppm (Std on PR-101); 4" x 6" [10 x 15 cm]: 32 seconds (Std on PR-101) ¹	SCANNER RESOLUTION	Digital: Up to 9600 dpi Optical: 1200 x 2400 dpi
PRINT RESOLUTION	4800 x 1200 dpi	COLOUR SCANNING DEPTH	36 bit
CARTRIDGES	Single ink tank system. Semi permanent print head, BCI-3eBK / BCI-3eY / BCI-3eM / BCI-3eC ink tank	HALFTONE	256 greyscale
YIELD	Black Ink Tank Life: 330 pages at 5% coverage ² 1500 pages (printing ISO/IEC-N5 image) ² Colour Ink Tank Life: 460 pages at 5% coverage per ink tank ² Cyan: 570 pages, Magenta: 440 pages, Yellow: 380 pages (printing ISO/IEC-N5 image) ²	COMPATIBILITY	TWAIN, WIA (Windows XP only)
	150 sheets auto sheet feeder	OTHERS	Multi Photo Scan
PAPER CAPACITY	A4, B5, A5, Letter, Legal, Envelopes (DL size or Commercial 10), 4" x 6", 5" x 7" & custom size	COPIER FUNCTIONS	
PAPER SIZE	Plain Paper, Envelopes, Bubble Jet Paper (LC-301), High Resolution Paper (HR-101), Glossy Photo Paper (GP-301), Glossy Photo Cards (FM-101), Photo Paper Pro (PR-101, PC-101S), Photo Paper Plus Glossy (PP-101), Matte Photo Paper (MP-101), Transparency (TF-102), High Gloss Photo Film (HG-201), Banner Paper, T-shirt Transfer (TR-201)	COPY RESOLUTION	600 x 600 dpi (black), 1200 x 1200 dpi (colour)
MEDIA	Sheet feeder: 64 to 105 g/m ² and supported Canon special media up to 270 g/m ²	COPY SPEED	Mono: 22 pages per minute Colour: 14 pages per minute
MEDIA WEIGHT	203.2 mm	REDUCTION / ENLARGEMENT	Up to 99 copies
PRINTING WIDTH	Available via printer driver	FIRST COPY OUTPUT TIME (FCOT)	Approx. 6.5 seconds
TWO SIDED PRINT	Photo Paper Pro (A4 & 4" x 6"), Photo Paper Plus Glossy (A4 & 4" x 6"), Glossy Photo Paper (A4), Matte Photo Paper (A4) Exif 2.2 (via Easy-PhotoPrint)	OTHERS	2-on-1 copy, Borderless copy, Mirror image copy, Image repeat copy, Entire document copy, OCR Bundle, Colour copy and Photo copy function

1. May vary with computer system specifications and content of document printed.
2. Not compatible with MicroDrive.
3. Based on ITU-T Standard Chart No. 1.
4. All figures are approximate and quoted for A4 media. For reference only. Black calculation based on printing 1500 characters, normal text in Standard Mode on plain paper with Windows XP.
5. All figures are approximate and quoted for A4 media. Based on printing the ISO/IEC-N5 pattern in Standard Mode on plain paper with Windows XP.
6. USB operation can only be guaranteed on a PC with pre-installed Windows 98, Windows Me, Windows XP, Windows 2000 (this includes Windows Me, Windows XP and Windows 2000 upgraded from pre-installed Windows 98). This product supports the majority of USB equipped PC's, however, due to difference in USB implementation (on some PC's) full compatibility cannot be guaranteed.

Digital Photo All-in-One
SmartBase MP700 Photo
SmartBase MP730 Photo

*Photo quality, professional performance
and speed — all in one*

**Photo quality,
professional performance
and speed — all in one**

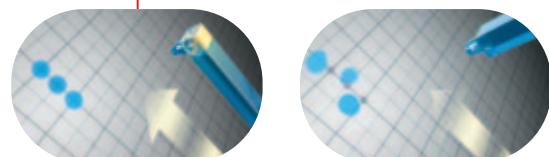

Canon introduces two Digital Photo All-in-One machines that deliver top-of-the-line performance and exceptional speed.

It's happening more and more. No two jobs are alike. You need a wide variety of equipment, you want the very best quality and it has to be fast. No one has time to wait around all day.

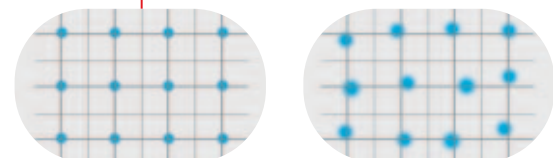

Not everyone has unlimited space for all the machines you need. Now thanks to Canon's new top-of-the-line SmartBase MP700 Photo and SmartBase MP730 Photo, you no longer have to choose between space, quality and productivity.

The SmartBase MP700 Photo and SmartBase MP730 Photo offer you the best available quality in easy-to-use machines guaranteeing high speed and high productivity.

BIG IN QUALITY
The SmartBase MP700 Photo and SmartBase MP730 Photo deliver top Canon photo print quality with 4800 x 1200 dpi and 2 picolitre consistent droplet size. Our newly developed 'Micro-Nozzles' coupled with advanced MicroFine Droplet Technology™ reduce graininess — on plain or photo paper — to always ensure you of the clearest, crispest photo and text prints available.

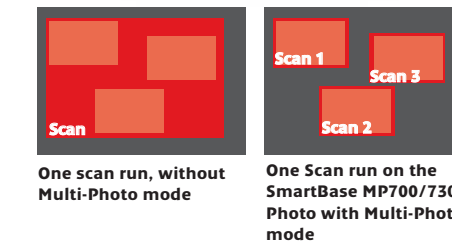

Advanced MicroFine Droplet Technology™ **Conventional/Competitors**

Traditional ink jet printing system delivers droplets of irregular placement and shape. Canon advanced MicroFine Droplet Technology™ improves the process of droplet ejection, delivering consistent drops with exact form and placement.

A4 and 4" x 6" borderless photo prints

One scan run, without Multi-Photo mode **One Scan run on the SmartBase MP700/730 Photo with Multi-Photo mode**

BIG IN SPEED
The SmartBase MP700 Photo and SmartBase MP730 Photo print and copy a phenomenal 22 pages per minute in monochrome and 14 pages per minute in colour.

EASY TO INSTALL, EASY TO OPERATE
Now, with a single installation — one electrical cord, one computer cable and one piece of software — you get top-quality machines taking up the space of just one. And, the specially-designed operation panel puts every command at your fingertips.

BORDERLESS PRINTING AND COPYING
The SmartBase MP700 Photo and SmartBase MP730 Photo give you totally borderless print output, right up to the edge of the media, delivering A4, 4" x 6" and 5" x 7" photo prints that look and feel like traditional photos.

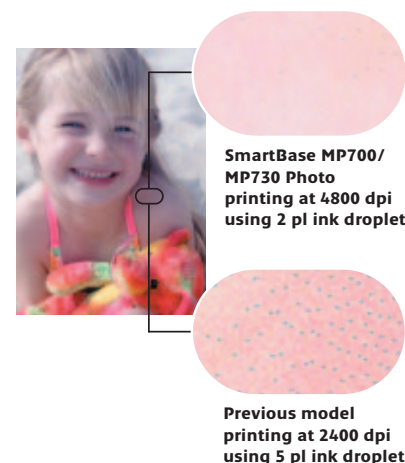

PRECISION COPYING
These machines make 1200 x 1200 dpi colour and 600 x 600 monochrome copies at high speed. You can reduce or enlarge your original from 25% to 400%, make borderless copies, fit 2 pages on 1 (in which two A4 pages are reduced to A5 size, rotated and put side-by-side on an A4), fit-to-page and copy mirror image.

DIRECT PHOTO CARD PRINT — NO MATTER WHAT YOU USE
You can plug your CompactFlash™, SmartMedia™, Memory Stick, Secure Digital or MultiMedia Card straight into the SmartBase MP700 Photo or SmartBase MP730 Photo media slots and print your digital photos without a PC. Alternatively load the photos into your computer through the media slot and adjust them using Canon's bundled software, giving you Exif Print support and Photo Noise Reduction.

TOP-CLASS SCANNING
These machines offer you a 1200 x 2400 dpi scanner that makes the most of Canon lens technology, so you get clear, clean scans every time. All Canon scanners use fast Multi-Photo Scan so, even if you place multiple photos on the surface, each photo you scan is saved as a separate file. You can save and e-mail your photo's in separate files. You can scan thick books or magazines thanks to the handy Z-lid.

Cyan Ink Tank BCI-3eC **Magenta Ink Tank BCI-3eM** **Yellow Ink Tank BCI-3eY** **Black Ink Tank BCI-3eBk**

SmartBase MP700/MP730 Photo printing at 4800 dpi using 2 pl ink droplets

Previous model printing at 2400 dpi using 5 pl ink droplets

Accepts five types of digital camera memory cards

Canon's ingenious Z-Lid lets you scan books as easily as single sheets of paper.

QUALITY FAXING*
On top of all the other features, the SmartBase MP730 Photo also includes a fax machine, but, not just any fax. Canon offers you a high-speed Super G3, 33.6 kbps fax with colour capability. It sends a monochrome page in three seconds** and a full-colour page in about 60 seconds. It has enough memory to store 250 pages** of incoming faxes, so you never lose a fax, even if the machine has run out of ink or paper. It has PC-to-Fax capability, enabling you to send faxes directly from your computer without having to print the document first. All of this is guaranteed to save you time and money and increase your productivity even further.

What's more, the SmartBase MP730 Photo features an efficient Automatic Document Feeder with 30-sheet capacity for even faster copying, scanning and faxing saving you time.

SINGLE INK TECHNOLOGY — NO WASTE
The SmartBase MP700 Photo and SmartBase MP730 are equipped with Canon's Single Ink technology employing individual tanks to reduce ink waste and save you money. You only replace the ink tank of the colour which has run out, and you never throw away a half-full ink tank.

CANON QUALITY ALL AROUND
With the SmartBase MP700 Photo or SmartBase MP730 Photo you are guaranteeing yourself of the best of all possible worlds — precision photo printing, quality copying, sharp scanning and fast faxing*. All using a minimum of space. All designed to maximise your productivity.

* SmartBase MP730 Photo only.
** Based on ITU-T Standard Chart No. 1
